Engineered Rigging Expands Arkansas Team as Kayla Munn Named Product Specialist

RUSSELLVILLE, ARK., February 7, 2022 —The heavy lifting equipment and engineering company, [Engineered Rigging](#) has hired Kayla Munn as key account specialist at its Russellville, Ark. facility. In this role, Munn will manage a variety of responsibilities including technology research, proposal development, procurement, client relations and project management.

Prior to joining Engineered Rigging, Munn was a product specialist at Enercon Services where she worked on projects at Arkansas Nuclear One (ANO). Munn has a Master of Science degree in geology and geochemistry from the University of Oklahoma and bachelor's degrees in geology and English literature.

“As our company continues to grow, we embrace talent who bring a different perspective to our innovative team. Kayla Munn shares Engineered Rigging’s commitment to building strong relationships with our clients across the United States,” shared Christopher Cox, P.E., founder and president of Engineered Rigging.

About Engineered Rigging

Engineered Rigging (ER) is a global innovator in heavy lifting.
